## FINANCIAL AND COMMERCIAL.

SATURDAY, April 10—6 P. M.

The fact that gold is a very scarce commodity in this city was demonstrated in a very striking manner to-day by the transactions of the gold market. A prominent firm, basing their action upon the expected large payments of gold interest from the Treasury during the period to the 1st of May, went "short" of it, as the expression in Wall street is, and sold quite extensively. A rival house who were "long" of gold, or supposed to be so, at figures one or two per cent higher than the market has ranged for a few days past, organized a clique in opposition to this "bear" movement, and made a decided raid upon cash gold, which they have been locking up to further their scheme. Their efforts in pursuance of this object led to a rather curious complication of affairs to-day. After the usual clearances of the Gold Bank they were entitled to about $1,300,000 in gold, for which they received certified checks of the Bank of New York. On presenting these one million was paid, but the bank refused to pay the remainder, alleging that it did not have the coin. The checks were about to go to protest, when some settlement was arranged, but the terms are differently stated. Some assert that the bank had the gold in double eagles, which it did not wish to part with, as they command a small premium as compared with other pieces. Others say that when the notary appeared at the bank to formally protest the checks payment was made, the bank in the interval having called in its loans of specie. Still another report is to the effect that the holders of the checks were induced to lend the bank the deficit. As some feeling was manifested toward the Gold Exchange Bank its president, Mr. Benedict, appeared in the Gold Room and made a speech to the members, declaring that his institution had not shown favoritism to any of its customers, and that its transactions had been perfectly regular. The secret of the difficulty lies in the fact that the holders of the checks upon the Bank of New York presented them this afternoon instead of waiting until the following business morning, which in this case would have been Monday. The whole affair is aptly illustrative of the evils attendant upon gold speculation. In this instance it brought two great rival interests in antagonism, to the injury and loss of merchants and others having a legitimate interest in the gold market. The scarcity of gold made by this withdrawal for speculative purposes caused a demand which was satisfied only at extortionate lending rates. The needs of borrowers compelled them to pay all the intervening fractions from 3-32 to 1-2 of one per cent per day for the use of gold during the two days to Monday at half-past twelve o'clock. In the excitement attendant upon the discovery that the Bank of New York had refused to meet its gold checks the price was suddenly run up to 133¾, the highest it has attained since the middle of February. The "bull" movement which caused this advance received strength from those who are anxious to sell before the expected disbursement of Treasury gold causes a decline. The proposition to anticipate the May interest has not worked very satisfactorily, so far as easing the market is concerned, the total coupons cashed thus far amounting to about $350,000, the rebate on which did not exceed $1,500. The range in the price to day was as follows:—

| | | | |
|---|---|---|---|
| 10 A. M. | 133¼ | 2 P. M. | 133 |
| 10:06 A. M. | 133¼ | 2:30 P. M. | 133¼ |
| 10:41 A. M. | 133 | 2:34 P. M. | 133½ |
| 11 A. M. | 132¾ | 2:40 P. M. | 133¼ |
| 12 M. | 132¾ | 3 P. M. | 133¾ |
| 12:16 P. M. | 132⅝ | 3:30 P. M. | 133½ |
| 1 P. M. | 133 | 5 P. M. | 133½ a 133½ |

The operations of the Gold Exchange Bank to-day were as follows:—

| | |
|---|---|
| Gross clearances | $107,936,000 |
| Gold balances | 3,307,322 |
| Currency balances | 2,213,708 |

Foreign exchange was dull after the steamer, but the market was additionally heavy on account of the high lending rates for gold, and prime bankers' sixty days sterling bills were purchasable at 107¾. No transfers by cable were reported.

The weekly statement of the associated banks is quite differently regarded in the street. By some it is thought favorable, as the large decrease in the line of loans betrays a more conservative tendency on the part of the banks, but probably the Washington story that the Comptroller of the Currency will call for the statement for Monday next is the secret of the contraction. The decrease in specie is not as large as the customs payments. There is therefore a gain from some source, while the increase in legal tenders shows the beginning of a return of currency this way from the country. Its effect was not unfavorable upon the stock market. The following are the last two statements:—

| | April 3. | April 10. |
|---|---|---|
| Loans | $261,933,675 | $257,480,227 |
| Specie | 10,737,893 | 8,794,543 |
| Circulation | 34,816,916 | 34,609,360 |
| Deposits | 175,325,789 | 171,495,580 |
| Legal tenders | 43,496,359 | 48,644,732 |

The following are the changes:—

| | |
|---|---|
| Decrease in loans | $4,453,448 |
| Decrease in specie | 1,943,350 |
| Decrease in circulation | 207,556 |
| Decrease in deposits | 3,830,209 |
| Increase in legal tenders | 148,373 |

The total in excess of the legal reserve is $5,913,040—a loss during the week of nearly $800,000.

The money market to-day was active but irregular as to the rates paid on call, which ranged from seven per cent coin to seven per cent currency, plus commissions of 1-16 and 1-8. Commercial paper was without change as to the volume of business, and rates ranged from ten to twelve per cent for prime double name acceptances.

Government bonds were firm and steady for the domestic issues and higher for the 62's, which sold at 120¼, the highest they have ever attained. The price came lower from London, 83¾, but the effect of this decline was counteracted by the higher price of gold, while the real scarcity of 62's on this side of the Atlantic causes them to move somewhat independently of the usual influences affecting the market. At the close they were 120¾, without any bonds offering lower than 121. The following were the street quotations at five o'clock this evening:—United States sixes, 1881, registered, 115⅞ a 116; do. coupon, 116⅛ a 116½; do. five-twenties, registered, 110 a 110½; do. do. coupon, 1862, 120¾ a 121; do. do. coupon, 1864, 115 a 115⅛; do. do. coupon, 1865, 117⅛ a 117⅜; do. do. coupon, new, 1865, 113¾ a 113⅞; do. do. coupon, 1867, 113¾ a 113⅞; do. do. coupon, 1868, 113¾ a 113⅞; do. ten-forties, registered, 104⅞ a 105; do. do. coupon, 105⅛ a 105¼; currency bonds, 103⅞ a 104.

The following were the bids for the City Bank stocks at the regular board this morning:—New York, 130; Manhattan, 140; Merchants', 126, Mechanics', 132; America, 145; Phenix, 107½; National, 109; Seventh Ward, 110; State of New York, 115; Commerce, 123; Ocean, 105½; American Exchange, 117¾; Chatham, 150; Hanover, 110; Irving, 109; Market, 123; Nassau, 105; Shoe and Leather, 133; Corn Exchange, 130; Continental, 99½; Importers and Traders', 130; Park, 153; Central National, 109; Fourth National, 103; Ninth National, 111; Tenth National, 97.

The stock market was comparatively steady after the wide fluctuations of the previous two days. It opened without much animation and underwent a decline at the boards, continuing heavy until late in the day, when an effort was made to rally it upon the strength of the bank statement. New York Central was without special feature. The pressure which the Vanderbilt party has brought to bear upon the Legislature to prevent obnoxious measures is further revealed in the adverse report of a minority of the Railroad Committee on the subject of *pro rata*. An Albany correspondent says:—

> To the utter astonishment of the House, and the wonder of spectators, the Railroad Committee this morning presented a minority report. They agree with the majority of the committee that it will be very difficult to establish a rate of freights that shall be just to the people and yet enable the roads to retain the carrying trade that now brings wealth to the city of New York. But they say that, by a wise discrimination, it will not be impossible to arrive at a fair and profitable result. They say that if this is not done the people will one day take up this matter, and in the first burst of their anger will enact laws that, while they will destroy the roads, will in their reacting effect seriously injure the prospect of the State. The report says that the Legislature should take into serious consideration this last danger, and endeavor to prevent it by timely action in the premises.

The following were the closing quotations on the call at the last open board:—Cumberland, 35, buyer three; Wells, Fargo & Co.'s Express, 31 a 31¾; American Express, 40 a 40½; Adams Express, 59⅛ a 59¼; United States Express, 58¼ a 58½; Merchants' Union, 15¾ a 16; Quicksilver, 22 a 22¼; Canton, 59¾ a 60; Pacific Mail, 92½ a 92¾; Western Union Telegraph, 41⅞ a 41½; New York Central, 162⅝ a 162¾; Hudson River, 144 a 146½; Reading, 93⅛ a 93¼; Chicago and Alton, 155½ a 156; do. preferred, 155 a 158; Alton and Terre Haute, 37 a 39; do. preferred, 66 a 68; Toledo and Wabash, 69⅛ a 69¼; do. preferred, 77½ a 78½; Milwaukee and St. Paul, 78; do. preferred, 85⅞ a 85¾; Fort Wayne, 131⅞ a 132; Ohio and Mississippi, 32⅞ a 33; Michigan Southern, 96⅞ a 97; Cleveland and Pittsburg, 90⅛ a 90¼; Lake Shore, 97 a 97⅛; Rock Island, 130⅞ a 131; Northwestern, 83⅞ a 84; do. preferred, 96 a 96⅛; Mariposa, 19⅛ a 20; do. preferred, 38¼ a 38⅞; Harlem, 138⅛ a 138⅜.

The receipts for customs and the receipts, payments and balances at the Sub-Treasury in this city for the week have been as follows:—

| | Custom House. | ——Sub-Treasury.—— | | |
|---|---|---|---|---|
| | Receipts. | Receipts. | Payments. | Balances. |
| April 5.. | $404,504 | $1,309,355 | $695,326 | $87,494,204 |
| April 6.. | 625,415 | 913,694 | 796,682 | 87,611,206 |
| April 7.. | 436,462 | 1,050,338 | 1,023,911 | 87,637,793 |
| April 8.. | 540,541 | 1,040,997 | 570,571 | 88,108,220 |
| April 9.. | 461,115 | 1,871,495 | 680,372 | 89,299,252 |
| April 10.. | 261,000 | 915,997 | 480,055 | 89,735,195 |

The earnings of the Marietta and Cincinnati Railroad for the quarter ending with the fourth week in March were:—

| | |
|---|---|
| 1869 | $293,741 |
| 1868 | 272,514 |
| Increase | $21,227 |

The earnings of the Chicago and Rock Island Railroad for the month of March were:—

| | |
|---|---|
| 1869 | $398,700 |
| 1868 | 262,791 |
| Increase | $135,909 |

The earnings of the Toledo, Peoria and Warsaw Railroad Company for the quarter ending April 1 were:—

| | |
|---|---|
| 1869 | $285,734 |
| 1868 | 130,968 |
| Increase | $154,765 |

The earnings of the Western Union Railroad during the quarter ending March 31 were:—

| | |
|---|---|
| 1869 | $138,747 |
| 1868 | 126,316 |
| Increase | $12,431 |

The exports of specie during the week were as follows:—

| | |
|---|---|
| April 5—Brig Isabella, Para—American gold | $10,215 |
| April 6—Steamer Saxonia, Hamburg—Mexican dollars | 12,500 |
| April 8—Steamer Morro Castle, Havana—Spanish gold | 226,380 |
| April 9—Schooner Keokuk, Arroyo—American silver | 5,000 |
| April 9—Brig H. H. Seavey, Ponce—American gold | 10,000 |
| April 10—Steamer Alaska, Aspinwall—American silver | 37,625 |
| April 10—Steamer City of London, Liverpool—British gold | 14,630 |
| April 10—Schooner Adelaide, Barbados—American gold | 10,000 |
| Total | $326,350 |

## REAL ESTATE MATTERS.

### Summary of Sales.

The following table continued from last report exhibits the gross amount of property knocked down at public auction during the past week and for the expired portion of the year:—

| | | |
|---|---|---|
| MONDAY, APRIL 5. | | |
| New York improved property | $260,050 | |
| New York unimproved property | 60,900 | |
| New York leased property | 42,250 | |
| Yonkers, N. Y., unimproved property | 25,640 | |
| Brooklyn unimproved property | 6,380 | |
| East New York unimproved property | 22,914 | |
| | | $418,134 |
| TUESDAY, APRIL 6. | | |
| New York improved property | $457,025 | |
| New York unimproved property | 65,100 | |
| Brooklyn improved property | 160,175 | |
| Brooklyn unimproved property | 149,755 | |
| Westchester Co. improved property | 7,400 | |
| | | 840,455 |
| WEDNESDAY, APRIL 7. | | |
| New York improved property | $168,200 | |
| New York leased property | 19,750 | |
| Fordham, N. Y., improved property | 13,325 | |
| Brooklyn improved property | 133,200 | |
| Brooklyn unimproved property | 13,050 | |
| Woodhaven, L. I., unimproved property | 21,718 | |
| | | 369,243 |
| THURSDAY, APRIL 8. | | |
| New York improved property | $533,950 | |
| New York unimproved property | 95,275 | |
| New York leased property | 7,400 | |
| Brooklyn improved property | 18,250 | |
| Brooklyn unimproved property | 48,455 | |
| Fort Hamilton, L. I., improved property | 29,750 | |
| Hudson City, N. J., unimproved property | 3,000 | |
| | | 736,080 |
| Total for the week | | $2,363,912 |
| Total for the week ending April 3 | | 672,975 |
| Total for the month of January | | 2,393,731 |
| Total for the month of February | | 9,175,985 |
| Total for the month of March | | 14,047,214 |
| Grand total | | $28,653,817 |

### Real Estate Notes.

The circular of a prominent firm of real estate brokers in Liberty street gives the following *resumé* of pending railroad legislation affecting real property in this city:—

From the projects now before the legislature we may expect that something will be accomplished in the way of increased facilities to reach Westchester county.

The Central Underground bill passed the legislature last year, but the corporators did not fulfil the terms of the bill, and they are this year before the legislature with a slightly modified bill, and have a fair chance of success.

Next the Arcade, which went through one House last year by an almost unanimous vote, but was defeated in the other, is being pushed with much vigor by its advocates.

The indefatigable Swain is again hard at work with a steam railroad project, a little different from his former plan. This "New York Railroad Company" propose to purchase land and run a two tier road through the blocks west of Broadway, to and across Harlem river at High Bridge. Capital of the company to the amount of $5,000,000 to be subscribed and ten per cent of that amount deposited with a Trust Company before any work is done.

The Manhattan Railroad Company wish to run a road under Broadway and Fifth avenue from the Battery to the Harlem river, and is nearly the same as the Metropolitan bill that passed both houses, and was vetoed by Governor Fenton in 1866.

Senator Genet has a bill for an underground railroad from the Battery through Greenwich street, College place, West Broadway, Laurens street, Washington square, Waverley place and Fifth avenue to Harlem river.

The New York and Great Eastern Railroad Company propose a road through the blocks on the east side of town, running north between Second and First avenues, crossing the Harlem river and running to the State line.

The Williams Elevated bill incorporates a company, with a capital of $25,000,000, to run a road from the Battery, over Broadway and Fifth and Eighth avenues, to the Harlem river.

The Empire City Railway Company ask permission to build an elevated railroad from the Battery to Harlem, over the route selected by themselves, and the right of way to be acquired by purchase.

Mr. Tweed is anxious for two street railroads from Fulton ferry. One goes directly across town and up on the west side, and the other up on the east side and across Spring street, and then through Greenwich street and Tenth avenue, making connections with the Twenty-third street ferry, and probably others farther up.

The Third Avenue Railroad Company are making an attack on Lexington avenue, applying for permission to run a branch through Twenty-third street, and that avenue to Sixty-sixth street, and through Sixty-sixth street to the Park. They also wish branches running to Broadway at Fourteenth street, Astor place and Chambers street.

Another road is wanted between South and Grand street ferries, and one through 125th street; and last, but not least, the Broadway Surface Road is being pushed with great energy. But few ever expect to see this road built, but if a charter is once granted it will take millions to buy the company off.

The new cars for local travel on the Hudson River Railroad have commenced running between Yonkers and New York, making three round trips daily. These cars are lighter than those used in the through trains, and have seats arranged along the sides as in the city cars. They are finished inside and out in a manner not excelled by any but the elegant cars lately built for the through express trains. The patent coupling used is a life-saving invention, as it makes a close connection between the platforms, so that it is impossible for any one to fall through and is operated by the brakeman while standing on the car, doing away with the necessity of going between the cars to adjust the link. The Creamer Safety Brake is attached to these as well as all passenger cars on this road. Another train is ready, but will not be put on till the general change in the time table.

By the present arrangement trains leave New York for Yonkers at 7, 8:10, 9, 10:20, 11:30 A. M., 12 M., 2, 3, 4:15, 4:30, 5, 5:15, 6:30, 7:30 and 11:30 P. M., and leave Yonkers at 5:40, 6:15, 7:16, 7:49, 8, 8:25, 9:03, 9:45, 11 A. M., 12:25, 2:45, 4, 5:40, 6:30 and 9:56 P. M. The fares between many points on the road have been slightly reduced. From New York to Yonkers it remains the same, except on Yonkers trains, and on these the fare is twenty-five cents. It is hoped to add the Elevated Railroad to our travelling facilities by the 1st of July. Everything is now being rapidly pushed forward towards completion, and before the summer is over suburban residents, it is expected, can go from their offices in this city to Yonkers in less than an hour and to Tarrytown in an hour and a quarter.

The officers of the Newark and New York Railroad expect to finish the line by the 1st of July. The work has been delayed because the company could not obtain possession of property in Newark until the 1st of April—the annual moving day in that city. Many large frame buildings have recently been moved through the streets of Newark to make way for the road. The track runs on abutments through the city, crossing the streets on bridges.

The road is nearly a straight line from Communipaw to Newark, and it is expected that trains will run much quicker than on the New Jersey Railroad. The depot, which will be on Broad street, between Fair and Mechanic, will be much more central than either of those on the other road. The recent changes on the New Jersey Railroad, by which coupons are used, will also tend to give the new line a monopoly of the local travel. The increased facilities furnished by the new road will no doubt do much to increase the population of Newark.

Mr. J. W. Southard sold on Tuesday, at public auction, the buildings upon the Quinby property in Broad, near Fair street, which are to be removed by the 24th instant, to make room for the station buildings of the Newark and New York Railroad. The property brought some $4,000 and $5,000, and we presume an edifice, which will be an ornament to the city, will soon arise from the ruins. It is seldom that a railroad company is able to secure so central a position in a large city, which will give it a considerable advantage in the competition for the New York travel to our down town residents.

An Indianola (Texas) journal thus speaks of the growth of that city and its future:—"The rapid growth of this city as a commercial centre is a matter of astonishment and wonder to the numerous persons visiting the place. Buildings and improvements of every description are constantly on the increase. The builders and mechanics generally are all employed in the pursuit of their calling, and the laboring man finds no lack of employment. The city has more than doubled its size within the last two years, is adding daily to its population. Property is gradually enhancing in valuation and is in demand at fair rates. The astonishment and wonder ceases on becoming familiar with the causes that are effecting all these matters, when the mind takes into consideration the great advantages that Indianola possesses in being situated at a point which must eventually control the commerce and trade of the western portion of Texas and Northern Mexico; and it will not stop at this, but must, when artificial means of transportation are completed, absorb a portion of the commerce of the Pacific shores.

| April 9.. | Sloop.... | Cat'rine Wilnant | 55 14-100 | Half.. | 1 |
| April 9.. | Canal b't | Tanner....... | 64 21-100 | Whole | 500 |

## VELOCIPEDE NOTES.

So the velocipede makers have at last got fairly started in litigation about their patent improvements.

And Witty and Smith and McIntire open the triangular duel with injunctions, lawyers' fees and all the other *et ceteras*.

And the aforesaid *et ceteras* will be the biggest item of the affair if they don't "look out."

It would be a big joke if "Jim" Fisk got in among them.

Because he's "at home" in a lawsuit where a few millions are involved.

And he will be into this if there is anything worth making out of it.

So take care, patentees, because the Prince of Erie runs a heavy amount of "rolling stock" now.

And he may run yours yet and run you out.

Which might hurt somebody's pocket—where the feelings are so very delicate, you know.

Now that velocipede rinks and carnivals and races are so popular, wouldn't it be a good idea for the leading men to "put their heads together" and get up a grand parade, inviting all the cities to participate?

Think of a thousand velocipedes coming down Broadway, four abreast, filing into "twos," &c., with a band of music and a score of experts at their head.

And then a tournament at the Prospect Park grounds, Brooklyn.

Ladies are becoming infatuated with the pastime, and many of them are very expert.

The Hanlons number ten ladies in their classes, the Pearsalls have a large number also, and among the expert *velocipediennes* in various parts of the county are Carrie A. Moore, "Queen of the Velocipede;" Madame Macarte, the well known *equestrienne*; the Elnore sisters, six in number; Alice Harrison and Mlle. Marne.

The La Belle sisters make their *début* to-morrow night at the Empire City Velocipedodrome, together with the De Soto brothers, all of whom will be superbly costumed.

On Friday night the first grand exhibition took place at the Jersey City Velocipedrome and was attended by over 2,000 persons. The unknown "velocipede sisters" were present and displayed remarkable proficiency. Wm. Muirhead won a gold medal for the half-mile race, best two in three. Time—Second heat, 2:32; third heat, 2:22.

C. B. Demarest made his mile at the Empire City Rink on Friday night in 3:44½, winning a $25 premium.

Professor "Ab" Brady, of Hanlon's, announces that the challenge of Fred Hanlon will be kept open only one week longer, and if not then accepted Fred will claim the championship.

"Ab" will display his nerve on the veloce shortly at the French theatre, on the occasion of the testimonial benefit to the widow of the late Humphrey Bland, the actor.

Pearsall's gymnacyclidium is the resort of considerable ton dom, of both sexes.

"Joe" Pangburn made the circuit of his bicyclodrom, on Friday, in fifteen seconds. Four short turns; length of hall 165 feet by 25 wide.

The Hervey Brothers open an immense hall in Buffalo, in a few days.

Chase, of the Astor Velocipede halls, in Vesey street, made a fine display of skill on the Martin bicycle, with his little daughter, Ella, at the Empire City Rink carnival on Friday night.

By the way, that carnival was the first fancy dress velocipede exhibition, and clowns, harlequins and ogres disported themselves gaily under the lead of Harry Taxter and H. J. Kelly as floor managers.

To-morrow afternoon "Walt" Brown will try to do fifty miles in six hours at the Old Skating Rink, Boston.

Macon and Atlanta, Ga., are backing their favorites for a veloce race.

The Prince Imperial of France is an adept on the velocipede, and the Princess Mathilde presented him a handsome bicycle on his birthday recently.

A monocycle, to be drawn by a pony, has been invented by Courbet, the artist, in Paris.

The Queen City Rink, in Cincinnati, was opened as a velocipedrome last week.

## SPORTING.

### Billiards.

The recent contest between Dion and Foster at Montreal, whereat the latter was defeated, has supplied a fund of conversation amongst the billiard circles. It is generally admitted that, regarded as a first class exhibition, the expectations of the spectators were far from being realized, the play throughout being considered rather indifferent for such competitors. Strange enough, both men, Dion especially, appeared to have preserved their self-possession, though the luck—and there is such a thing—is stated to have been wretched in the extreme. A favorable feature which characterized the three games, and one which is highly commendable was the harmony which prevailed. At the forthcoming tournament another opportunity will be afforded those evenly-matched billiardists of displaying their respective merits.

It is proposed to hold a billiard congress early in the summer. A meeting will be held in Boston to-morrow, when the matter will be fully considered.

Much interest was taken in the match recently played in London between W. Cook, Jr., and Roberts, Jr., for £200. On a previous occasion Cook was defeated after three hours' play by ninety-two points. Not satisfied, however, Cook almost immediately after issued a fresh challenge, which was promptly accepted by Roberts, who was backed by his father, the champion. The game was 1,000 points up. Cook won by 323 points.

### Aquatic.

A few days ago Josh Ward, the trainer of the Yale University crew, chose from the candidates selected, after a trial of strength, the men who are to row against the Harvard crew in the next annual College regatta. The new crew is as follows:—Stroke—George W. Drew, New Haven; William A. Copp, New England Village, Mass.; Orlando Cope, Butterville, Ind.; William H. Lee, Chicago, Bow—D. McBone, Petersburg, Ill.; Roderick Terry, Irvington, N. Y. Copp and Terry were members of the crew that rowed last year. The Harvard crew has accepted the challenge to row at Worcester on the 23d of July next, unless in the meantime some other place be selected. Lake Saltonstall, near New Haven, is suggested.

Hamill, the ex-champion, has been in active practice during the winter, and, in addition to his prospective contest with Brown for the championship, will, it is said, be in readiness to accept any challenge that is tendered him. It is thought that he will probably compete with Coulter.

There is every prospect that the aquatic season will be one of the most famous that has taken place for years. Among other notable events the Ward brothers are determined if possible to wrest the honors from the Paris crew, of St. John, N. B., won last year.

The Boston Fourth of July regatta promises to be a very spirited affair.

It is sincerely to be hoped that New York will produce a four that will enter the champion course and endeavor to bring the laurels to this city.

A six-oared crew has been organized in Portland, which, according to rumor, is one of the best in the United States.

The match recently made between William Hays, of Williamsburg, and James Shean, of Randall's Island, to row five miles in seventeen foot working boats, for $200 a side, is already beginning to create some interest. The contest is to be decided on the Hudson river on the 27th instant. The start will take place from a stakeboat off Elysian Fields. Both men are now in active training, and each is sanguine of success.

Among the other events announced are:—April 13, J. Melching and Henry Waldron, at Harlem, for $200 a side; 24th, John Minor and John Fields, on the Harlem river or at the Elysian Fields, for $250 a side; May —, S. Waterbury, of the Atalanta, and H. Spear, three miles, at Elysian Fields, for a $50 prize; 16th, John Collins and Buck Hayes, three miles, for $100, at Port Chester; 20th, Hudson Amateur Rowing Association Regatta, Hoboken; June 6, James Armstrong and Richard Humphries, at Ottawa, C. W., for $100, to row two miles.

### Shooting.

The laws for the protection of game are in some districts being carried out with commendable rigor, and poachers generally are beginning to withdraw their cowardly traps with remarkable rapidity. It is high time that such unmitigated prowlers should be satisfactorily disposed of. It is a pity they could not be caught in their own traps and detained until such time as they come to the conclusion that honesty was the best policy. They would doubtless starve.

James Ward has at length accepted the spirited challenge from Ira Paine, offering to shoot a pigeon match against any man in Canada, at one hundred single pigeons each, fifty from ground traps and fifty from plunge traps, for $500 a side; trap and handle against each other, and if shot in New York Paine to find all the birds. Win or lose Ward also proposes to make a match with Paine to shoot on the following day at twenty-five double rises each, plunge traps, for $200 aside.

At a recent shooting match in Detroit between M. J. Revard and H. L. Beaubien, the former was declared the victor, having killed six birds to his opponent's five.

A pigeon match was decided at Troy on Thursday between A. Calhoun and J. Wemys. The contestants shot at eleven single birds, sixteen yards rise, sixty yards boundary, for $50 a side. Wemys won, having killed nine birds, and Calhoun five.

The following contests are announced:—April 14.—James Devlin and Martin Austin, at Troy, for $75 a side. 16th—Henry Sair and James G. Matthews, at Worcester, Mass., for $50 a side.

### Pedestrianism.

The pedestrian tournament in Philadelphia, to be held during the first week of June, promises to be an interesting affair. The following is the programme:—A fifty mile walking sweepstakes for a "Champion's Cup." Value, $300. The winner to hold it six months, and accept all challenges to walk in not less than six weeks from the date of challenge, and for a stake of not less than $250. Fifty dollars will be given to the second man. One hundred dollars will be given to the man who walks the first twenty-five miles in the shortest time. Entrance fee twenty-five dollars, to be made in two installments, first ten dollars by the first of May, and the second, of $15, by May 20. On the same day a half mile handicap running race, open to all; first prize, $100; second prize, $30; third prize, $10. Also a handicap 150 yards: first prize, $150; second prize, $30; third prize, $10. The entrance fee for both handicaps to be $5—$3 to be made not later than May 1. Acceptances for both handicaps $2, to be made May 20.

A pedestrian congress is to be held at Whitby, Canada, on the 24th and 25th of May, at which some valuable prizes will be given.

Weston is again ready with another of his challenges, and offers to walk Paine 100 miles on Tuesday, the 29th inst., between Fredonia and Silver Creek, a stretch of twelve miles and a half.

Among the other events announced are:—April 22—Moses Patterson and H. Warren, at Columbus, Ohio, a two mile race. May 1—W. Matrs and C. Downing, at Chicago, for $500. 2d—James Myers and Edwin Laird, at Springfield, for $250. 5th—J. Stark and Richard Garvin, at Rochester, for $100; and Sam Meany and James Johnson, at Avon Springs, for $100 a side. 23d—Lionel Curtis and Frank McNeil, at Hartford, for $500.

### THE COMMERCE OF RUSSIA.

The trade of Russia with foreign countries has increased to an immense extent during the last ten years. In that space of time the value of the exports by the Baltic have increased by 15,000,000 roubles, and the value of those by the southern ports and the western land frontier has nearly doubled: while the imports have increased nearly threefold on the land frontier and have doubled in the Baltic ports and in the ports of the White Sea. Great Britain heads the list of States importing Russian goods, taking nearly four times as much as Prussia, which is the next largest customer of the empire. The imports from foreign States in 1867 exceeded those in 1866 by no less than 54,399,397 roubles, the largest share of which falls to Prussia. The entire value of the exports and imports of the empire to and from European countries (including Finland) amounted in 1867 to 457,000,585 roubles. During the same year 11,047 vessels were entered in Russian ports and 11,099 cleared, showing totals respectively of 1,585,735 and 1,400,532 tons.

SUICIDE OF COLONEL LESTER, OF CONNECTICUT.—Colonel John S. Lester, of Preston, mysteriously disappeared from his home on Wednesday night, leaving a note addressed to his sister and her husband, in which he said that life had become a burden which he was unable longer to bear; he had been cheated and swindled out of all his money, and he was unable to pay his honest debts, which, God knew, he would do if he could. After thanking his relatives for their loving care for him, and making some requests as to his property and papers, he said it would be useless for them to look for him, as they would never again see him in this world. The front door was unlocked, and he had evidently gone out during the night, no one knew whither. It was subsequently ascertained that he took the steamboat train for New London on Wednesday night, but no one saw him after the train left Norwich. A Mr. Smith, of New London, passenger on the steamer City of Boston on Wednesday night, reports that when the steamer was between New London Light and Bartlett's Reef, he saw a man spring upon the rail just abaft the paddle boxes and jump overboard. No one knew who he was and no one, as far as could be ascertained, was missing from her passengers. It was not until the arrival of the train at Norwich on Friday morning, and the fact ascertained that Colonel Lester was missing, that the identity of the stranger suicide could be established. Mr. Smith's description of the man he saw take the leap answers exactly to that of Colonel Lester, and there is no doubt that it was him. Colonel Lester was fifty-four years of age, and a native of Ledyard, but had lived in Preston many years. He was formerly an active politician in Preston and in 1857 represented that town in the Legislature.—*Hartford Courant, April 10.*

## THE NATIONAL GAME.

Although the air is rather chilly and the damp, cool feeling of the ground would imply that the old bore to ball players—Boreas—had not yet taken his departure, the ball fields have been pretty well patronized during the past week. Saturday being generally the rallying day and the weather yesterday being fine, although somewhat Marchy, and moreover the promise of a fine game between picked nines of amateurs, succeeded in drawing quite a crowd to the Capitoline grounds.

The opening practice game of the Atlantics on Monday last was played on the lower field, but Messrs. Weed & Decker, noting the anxiety of the ballists to be at work, hurried their preparations along, and yesterday the large field was all neatly trimmed and levelled, and presented a really beautiful appearance. About four o'clock Cummings and Leland, of the Star Club, selected sides from those present and went to work. The players were from the Star, Excelsior, Mutual, Alpha and Eckford clubs, and although some of them were rather rusty, a pretty fair game of six innings was played.

Cummings did the pitching for his side, and showed that, although a little rusty, he has some good pitch in him yet, and ere the close of the season will help to "tar" some of the aspiring amateurs. George Hall played first base in unexceptionable style. Leland in the field was as sprightly as could be desired and fatal to those who gave him an opportunity to nip any flies. Hall made a pretty catch of a foul fly. Bass, while playing catcher, also took a couple of fly-tips neatly, and Thompson, of the Stars, on third base, succeeded also in capturing handsomely a foul fly. James, at left field, took a fly neatly; but Leland, at centre field, excelled, making three catches of balls very prettily judged. There were several specimens of fine infielding by Raymond, Cummings, Fanly and Munn, the latter especially doing some good work at short field. Three very handsome double plays were made. At the close of the sixth inning the game was called, the score standing 11 to 6 in favor of Cummings' side. On Cummings' side the first base was made on hits eleven times and on Leland's side five times. Peck and Snyder presented to Cummings for making first base oftenest on clean hits a handsome bat, and to Leland for the prettiest catch a regulation ball.

### Base Ball Notes.

The Empires are about to shake off the lethargy which has apparently been holding them back. They will meet to-morrow evening at Voorhies', for the election of officers, and to make arrangements for the coming season.

There is some complaint of irregularity about the recent election of officers by the Gothams.

Peck's is now the home of base ball gossip.

The Mutuals have not yet decided where they shall play during the coming season. There is some talk about going up through the swamps and stenches, between Hoboken and Bergen Hill, to the St. George ground, on the summit of the mountain just beyond Hudson City. For the sake of the health of your members and friends, don't do it. Some of the Mutuals think the Capitoline is too far away. Possibly it is. But if the Mutuals have decided not to go to the Union grounds is it not better to go a little further to a beautiful, well managed, universally known and easily accessible ground, as the Capitoline is, than to be sweltered and stunk half to death in greasy cars passing stagnant pools and fat boiling and other establishments peculiarly antagonistic to comfort or cleanliness, in efforts to reach a poorly arranged and rather limited ball field, as the St. George ground is?

A Washington paper says:—"The Nationals are coming out as a strong amateur club this year," and then gives the following well known amateurs as composing the nine:—"Pabor, pitcher; Birdsall, catcher; Forker, first base; Gibney, second base; Shelley, third base; Studley, Berthrong and Fox in the field. The short stop is unknown."

The city fathers of Hoboken have directed the police to arrest any persons caught playing base ball within the city limits. This need not frighten the Elysian Fields players, as the fields are located outside of the limits.

The Nationals, of Albany, have elected the following gentlemen as officers for the ensuing year:—President, I. P. S. Briant; Vice President, F. H. Lawrence; Recording Secretary, E. W. Tracy; Corresponding Secretary, H. W. Garfield; Treasurer, G. P. Whitney; Financial Secretary, L. M. Gray; Scorer, H. W. Garfield. Mr. Garfield is also corresponding secretary of the State Association and Mr. F. H. Lawrence is chairman of the Judiciary Committee of the Western division.

The Socials have made all arrangements to come out strong. They will commence by having a flag raising and practice game at the Elysian Fields on Wednesday, the 21st inst.

The Alpha club, of Brooklyn, announces its readiness to receive challenges from amateurs. The nine to represent the club is said to be a good one, and at a recent meeting the following gentlemen were chosen to attend to the business of the club:—President, W. D. Jones; Vice President, D. G. Gillen; Treasurer, Alexander Humphreys; Secretary, H. Dunbar; Directors, H. B. Munn, S. James and John A. Valentine; Captain of first nine, H. B. Munn.

The ballists out West are making up, and strong nines are being organized for a grand campaign.

It is understood that the Committee on Constitution and By-Laws of the State Association will soon have their report completed. The manual of the association will be prepared as soon thereafter as possible.

Secretaries of clubs in the State Association should send to the Recording Secretary of the association a list of officers and delegates chosen for the current year.

### FOREIGN SCIENTIFIC NOTES.

The *Giornale di Napoli* mentions that Vesuvius has not yet returned to the state of quiescence that generally follows great eruptions. A column of white smoke is still rising from the crater, and even the smaller fissures show signs of internal commotion. The lava is still lukewarm, although there has been no fresh emission for more than a month. The Observatory also gives notice of slight shocks at intervals. Professor Palmieri thinks that the earthquake recently felt in the Basilicate is in relation with the present phenomena of the mountain. A great number of visitors, for the most part foreigners, make the ascent every day; but they cannot reach the crater by reason of the lava and smoke. The highest point they can attain is the Atrio del Cavallo.

Two medical students of Marseilles have communicated the following interesting results of some experiments with the well known liquor called absinthe. Take a small animal, say a cat, a rabbit or a guinea pig and place it under a glass bell or cover, with a saucer containing some essence of absinthe. After a few moments of activity the poor animal will show evident signs of uneasiness and will endeavor to escape from the poisonous atmosphere. It suddenly falls on its side, the members stiffen and become immovable for a moment, then experience convulsive twitchings; it will foam at the mouth; in fact an epileptic fit takes place, followed by prostration.

If the same animal is placed under a glass saturated with alcoholic fumes the effect is quite different. After a moment of agitation it staggers, and a feeling of laziness following, it lies down with perfect indifference.

It is therefore evident that alcohol merely intoxicates animals, but absinthe strikes them with epilepsy; therefore it is absurd to state that absinthe is only obnoxious on account of the spirit it contains.

THE OLD LAND THE BEST.—A number of citizens of Newton county, Ga., who left for Honduras shortly after the war, have returned to their old homes, perfectly satisfied with the anticipation of wealth and happiness in another land.

## MARRIAGES AND DEATHS.

### Married.

ADDISON—DUNBAR.—On Sunday, March 21, at Amite city, La., by the Rev. John F. Girault, HENRY S. ADDISON to MAY, second daughter of the late George T. Dunbar, of New Orleans.

CONNELL—REILEY.—On Thursday morning, April 8, at St. Stephen's church, by Rev. Edward McGlynn, D. D., GEORGE W. CONNELL to SARAH E., only daughter of the late Thomas Reiley.

CORBUSIER—DUNBAR.—On Sunday, March 21, at Amite city, La., by the Rev. John F. Girault, Dr. WILLIAM H. CORBUSIER, of New York, to FANNY, daughter of the late George T. Dunbar, of New Orleans.

FISKE—WHITNEY.—In Grace church, Rochester, on Thursday, April 8, by the Rev. C. C. Fiske, assisted by the Rev. J. Foote, D. D., ARTHUR T. FISKE, of New York, to CAROLINE W., daughter of George J. Whitney, Esq., of Rochester.

HENNESSY—BAKER.—On Thursday, April 8, at St. Gabriel's church, by the Rev. Father Clowry, DANIEL HENNESSY to ELLEN C., second daughter of Richard Baker, all of this city.

SCHANK—CRAGIN.—In this city, on Thursday, April 8, by the Rev. Charles W. Baird, Mr. E. DU BOIS SCHANK, of this city, to Miss ALICE, eldest daughter of George D. Cragin, Esq., of Rye, N. Y.

### Died.

ALLAN.—In Brooklyn, on Thursday, April 8, of consumption, DAVID B. ALLAN, a native of Stonehaven, Scotland, aged 39 years.

The friends of the family, also the members of Hyatt Lodge, No. 205, F. and A. M., and Adelphi Chapter, No. 158, R. A. M., are respectfully invited to attend the funeral, from his late residence, 637 Myrtle avenue, this (Sunday) afternoon, at two o'clock.

Aberdeen and Stonehaven (Scotland) papers please copy.

BERGEN.—On Saturday, April 10, GEORGE BLISS, son of Parmenus S. and Annie Bergen, aged 15 months.

The relatives and friends are respectfully invited to attend the funeral, from the residence of Mrs. C. B. Bergen, 35 West Baltic street, on Monday afternoon, at three o'clock.

BIRCH.—At New Brunswick, N. J., on Friday evening, April 9, SARAH ALEXANDER, widow of the Rev. Robert Birch, in the 63d year of her age.

Services on Tuesday morning, at half-past ten o'clock, at her late residence, 96 George street, New Brunswick. The relatives and friends of the family are respectfully invited to attend the funeral, from the residence of John Van Rensselaer, Esq., Belleville, N. J., on Tuesday afternoon, at two o'clock. Carriages will be in waiting at the Market street depot, Newark, on the arrival of the twelve o'clock train from New York.

BOGART.—On Saturday, April 10, PETER LYSTER, son of A. Augustus and Mary F. Bogart, aged 5 years and 8 months.

The relatives and friends of the family are respectfully invited to attend the funeral, from the residence of his parents, 315 East Twentieth street, on Monday afternoon, at one o'clock.

CANDEAUX.—On Saturday, April 10, widow L. Z. CANDEAUX.

Her friends are invited to attend the funeral, from her late residence, 28 Amity street, this (Sunday) morning, at half-past nine o'clock. The remains will be interred in New York Bay Cemetery.

CARBERRY.—On Friday, April 9, THOMAS CARBERRY, aged 37 years.

The funeral will take place from 94 North Moore street, at half-past one o'clock.

CLARK.—On Saturday, April 10, MARY, the beloved daughter of Patrick and Ellen Clark, aged 22 months and 1 day.

The friends and relatives are respectfully invited to attend the funeral, from the residence of her parents, 292 East Houston street, on Monday afternoon, at half-past one o'clock.

CLEMENTS.—On Saturday morning, April 10, JOHN CLEMENTS, aged 47 years.
